

Stockwell Group Practice

107 Stockwell Road, SW9 9TJ (about 10 mins walk from Stockwell/Brixton/Clapham North tube stations)

Large practice (list size around 15,000) with diverse, interesting and challenging population. 6 partners and 3-4 salaried/part-time GPs, 3 practice nurses (2 full time), 1 HCA, benefits advisor on site, lots of lovely and very experienced admin staff behind front desk, drug and alcohol worker and strong links with district nursing team. Keen to encourage research in community and with other professions - e.g. currently involved in musculoskeletal research project with osteopaths. Everyone approachable for advice and practice as a whole friendly and fun. Job very much tailored to trainees' individual needs. Good staff room and kitchen upstairs where most people pass through at lunchtime, practice meeting on Monday lunchtimes. Morning coffee-break. Trainer Alex McKay (alex.mckay@nhs.net) and practice manager Jenny Hoggins (jenny.hoggins@nhs.net) are your main first points of contact for any questions about the placement. Leave easy to arrange and if working over Christmas will be on half day either Christmas Eve or New Year's Eve. Plenty of exposure to chronic disease and emergency walk-in lists every afternoon. 2-3 home visits per week, no car necessary but parking available at practice. Future: Long history of retaining trainees to work as salaried staff, low salaried staff turnover.
