

**The Villa Street Medical Centre, 47 Villa Street, London,  
SE17 2EL (In Southwark)**

Situated on Villa Street just off the Walworth road, south of Elephant and Castle is this friendly surgery. It is easily accessible by public transport and a car is not needed, but a car parking permit for outside the practice can be obtained for you by the practice manager if necessary. The practice is outside the congestion charging zone.

There are 4 partners in the practice and a salaried GP (who was a GP trainee on the GSTT scheme!). At any one time there are normally 2 GP trainees in the practice (an ST2 and an ST3). As an ST2 you will be supervised by Dr. F. Diffley and the ST3 will be supervised by Dr. J. Hodges. At lunchtime everyone in the practice meets up to discuss their morning, which is very sociable.

The practice looks after the local inpatient alcohol and drug detoxification unit (Equinox) which is just opposite the Elephant and Castle shopping centre, where the homeless and rootless GP trainee works twice a week. The practice can be contacted on 02077037393.
